Alaska Business Report Card Group Releases Grades

Anchorage, AK – The Alaska Business Report Card (ABRC) has released its grades for the 29th Alaska State Legislature. Published every two years at the conclusion of each Legislature, the report card is a tool for the collective ABRC membership to analyze individual legislators on their efforts to provide a stable economic climate for business in Alaska.

At the beginning of each session, the legislators are provided with a letter indicating which issues they will be graded on that the ABRC is following.

Grades were compiled based on a broad range of legislation impacting Alaska businesses and the economy. Legislator performance was tracked at the committee level, in floor sessions, and in terms of leadership shown both inside and outside formal legislative sessions.

Legislators were notified via email on Friday morning that their grades can now be found online. The grades are available at alaskabusinessreportcard.com.

###

The ABRC was formed in 2010 in an effort to inform the participating organizations' member companies, who employ tens of thousands of Alaskans, on how elected officials are performing to ensure Alaska remains an attractive place for private sector investment, jobs and economic growth. The ABRC is made up of the Alaska Chamber, Alaska Support Industry Alliance, Prosperity Alaska and Resource Development Council for Alaska, Inc.
